

KeyTrak Edge Concierge

Whether you manage office buildings, business suites, or mixed-use properties, controlling access to unit or room keys is essential. With the KeyTrak Edge Concierge system, you can reduce your organization's liability by controlling who can access keys or fobs. The system provides extensive key control features with a low profile, ideal for front desks in high-end environments.

An adjustable monitor, integrated fingerprint reader, and wireless accessories create a streamlined, user-friendly workspace.

Benefits

- Secure keys in a computerized locking steel drawer.
- Program key information on tags to avoid writing them on labels anyone can see.
- Reserve the keys you need ahead of time.
- Set up end-of-day reports, alerts, and more.
- Run reports on specific key types, job roles, or users.
- Manage your system from your desk with KeyTrak Edge Remote.
- Check key status on the go with our mobile app.

Included Hardware

- 112-key drawer
- KeyTrak Edge server
- 15-inch touchscreen monitor
- Fingerprint reader
- Wireless keyboard and mouse
- Key tag button reader
