KeyTrak Edge Concierge

With the KeyTrak Edge Concierge system, you can give residents peace of mind and reduce your property's liability by controlling who can access apartment keys or fobs. The system provides extensive key control features with a low profile, ideal for front desks in high-end environments.

An adjustable monitor, integrated fingerprint reader, and wireless accessories create a streamlined, user-friendly workspace.

Benefits

- Secure keys in a computerized locking steel drawer.
- Program unit numbers on key tags to avoid writing them on labels anyone can see.
- Reserve the keys you need ahead of time.
- Create alerts to notify residents when the keys to their home have been checked out.
- Set up end-of-day reports, alerts, and more.
- Run reports on specific key types, job roles, or users.
- Import new resident information and automatically replace existing data.
- Manage your system from your desk with KeyTrak Edge Remote.
- Check key status on the go with our mobile app.

Included Hardware

- 112-key drawer
- KeyTrak Edge server
- 15-inch touchscreen monitor
- Fingerprint reader
- Wireless keyboard and mouse
- Key tag button reader
